- ✓ Privilege Account

#Bio-touch to Login

Best Fingerprint Experience

Passwordless & Phishing-resistant

- ① Key Flash
- ② Match Fingerprint
- ③ Login Account

 **KEY.Pro**

Something You Have, Something You Are

Secure And Convenient – Best Fingerprint Experience

AuthenTrend leads the way in fingerprint FIDO2 security keys, empowering users with the most secure and convenient passwordless login experience. ATKey.Pro supports diverse deployment scenarios—cloud, on-premises, and hybrid—providing the first line of defense for enterprise information security.

- **Patented Standalone Enrollment** — enroll fingerprints directly on ATKey.Pro without PC.
- **Compact & Portable** — side-mounted sensor and silicone case for everyday use.
- **Microsoft Entra ID Recommended** — trusted FIDO2 security key for passwordless login.

Match-In-Key Technology

Fingerprint data is digitally encrypted and stored only inside the security key. The LED indicator shows green for a successful match and red for a failed one. Each key can store up to 10 fingerprints and an industry-leading 160 FIDO2 credentials.

ATKey.Pro User Cases

Cross Device & Platform

One Key, Any Device. After setup, ATKey.Pro lets users log in securely across multiple devices and platforms. Perfect for shared workstations: just plug in, touch, and you're in.

Web APP Authentication

Windows MFA

ATKey.Login enhances safety and convenience of the login on Windows PCs and is compatible with a wide range of environments.

ATKey Provisioning

With the ATKey provisioning solutions, admins can pre-register ATKeys for users' accounts, making the user onboarding process frictionless.

ATKey.Pass Extension

FIDO2 HMAC Password Manager, works with Chrome and Edge. Store and protect your passwords securely in ATKey.Pro, accessible only with your fingerprint.
